PROJECTS

Image Search Engine

- The project aims to create a website that allows users to search for images online using specific keywords.
- Designed the user interface of the website using HTML, CSS, and JavaScript.
- Tested the website's functionality and usability.

Quiz Website

- To develop a quiz webpage that allows users to take quizzes on various topics and receive their scores.
- The development of the quiz webpage is progressing well. The quiz webpage will be valuable for users who want to test their knowledge on various topics of development in HTML, CSS, and JavaScript.
